

# Firefox Intranet Security Options for SharePoint

By Scott Badger

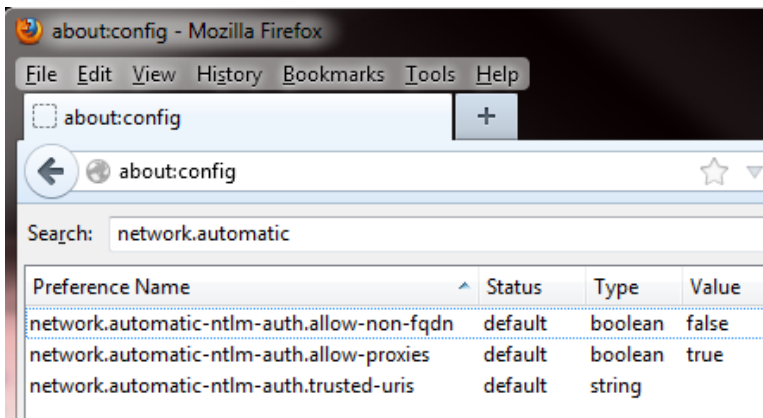

Use these options to limit authentication prompts from FireFox when you use RIC’s SharePoint server.

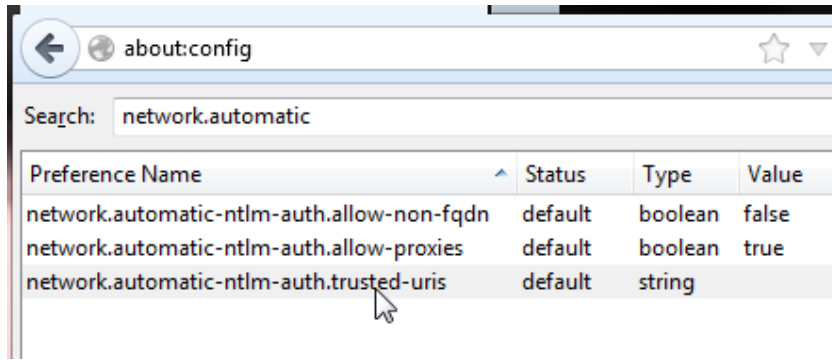

1. In the address bar, type in “about:config”.

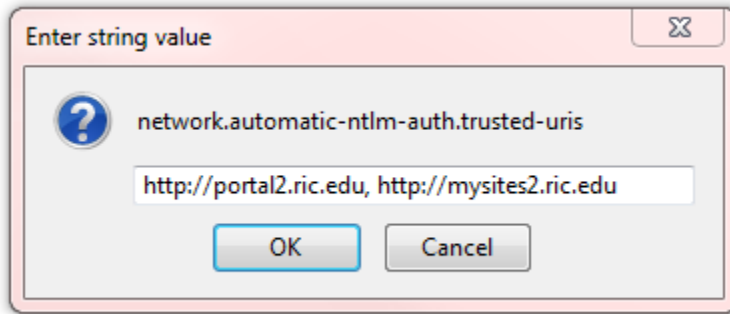

2. Click the “I’ll be careful, I promise!” button

3. In the Search field, enter in “network.automatic”.

4. Double-click network.automatic-ntlm-auth.trusted-uris.

5. In the Enter string value window, enter in **http://portal2.ric.edu, http://mysites2.ric.edu**.
6. Click Ok.
